

## Print Hair Styling Program /Courses

### Professional Hair Styling Program for Fashion, Beauty & Print

In this program you will learn everything you need to know to become a professional hair stylist in print, television, runway or fashion. From the very basics to the most advanced techniques, top image expert Margaret Kimura has created this program based on her knowledge and experience from almost 30 years in print, television, fashion and film. Unlike a cosmetology course, this program is focused on hair styling, which makes it a perfect add-on course for cosmetologist or can be taken alone for stylists whose only interest is styling.

In addition to unequaled print hair styling skills, as a Professional Hair Styling student you will participate in one professional photo shoot with a master fashion photographer, makeup artists and models. As a result, your portfolio will be started and you will be ready to start your career in the industry. (Complete Professional Hair Styling Program is a total of 140 clock hours.)
